**Class Session on Climate Change:** In Community of Christ history, we honor the Zionic ideal of community over isolated individualism. The hour-long reunion class created by the North American Climate Justice Team of the Community of Christ challenges participants to embrace a community-oriented perspective in responding to climate change. The class includes a TED talk that explores how all of us tend to deny and avoid climate issues, and ties denial to the Christian story of the Apostle Peter. The transformation from denial through fear to Christian community and perseverance provides a template for facing the multiple crises threatening our world today.

**World Accord:** Join us for a World Accord update and check-in with Executive Director David Barth. [Donations to World Accord will be invited during this session.](#)
