

Keep Me Safe !

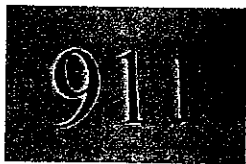

Emergency Preparedness – Am I Ready !

Where are our resources ?

Can help find us ?

Who do we call ? Can we rely on our cell phone ?

Directors: Contact your Campground Board or facility management and ask for their current “Emergency Preparedness Handbook”. If no handbook is available, you must develop a plan of preparedness and provide training for your camp staff prior to the event. Provide constructive criticism and solutions following your camping activity in support of the next and future users.
