## **Guide to Filling Out the Noronto Reunion Registration Form**

The Registration Form was designed to be completed electronically. This is accomplished by downloading the Registration form. If you do not download it will not work. A great number of computers already have applications that will support the advanced features of this form — **Adobe Acrobat or Adobe Acrobat Reader**. If your computer has one of these applications, you can type into all text fields and use the check boxes. In addition, the form will automatically calculate and total fees on page 3 of the Registration Form.

**Adobe Acrobat Reader** is available as a free download from <https://get.adobe.com/reader/>

Some other computer applications may allow you to open the registration form and type in a text field, but may not let you use the check boxes and/or the auto-calculations of fees on page 3 of the Registration Form. If auto-calculation is not supported, all values and calculations must be manually entered.

For Macintosh users, please note that *Preview* does not support the auto-calculation features of the Registration Form. The use of **Adobe Acrobat Pro** or **Adobe Acrobat Reader** is strongly recommended.

## **Filling Out the Form by Hand**

A copy of the Registration Form may be printed and completed by hand. Please return all three pages of the completed Registration Form with payment(s) to the Registrar.

## **Filling Out the Form Electronically**

### **DOWNLOAD to Fill Out Electronically**

***Do not fill out the Registration Form without downloading to your computer***

After filling out the Registration Form ... **SAVE!**

***Remember to save any changes you make or they will be lost.***

From the *File* menu, select either *Save* or *Save as...*

***A PRO TIP:*** after saving your completed Registration Form, close the file, and then reopen it and ensure that all field entries are saved.

In the past, we have occasionally received blank registration forms because changes were not saved.
